

# FEATURES

## NEW 7" TOUCHSCREEN AND REDESIGNED UI & UX

FLEX's new 7-inch touchscreen provides us more space for our brand new user interface. After listening our customers, we revisited our user experience and have provided a more functional structure with easier navigation.

## DUO CONDITIONING SYSTEM

Easily insert our new pre-filled conditioner cartridges with no spills and no mess. Fire, Ice, Curve and Current Lane Conditioners are available in this design. Simply pop them into place and you are ready to go. Each machine also comes with refillable cartridges to allow you to easily use your other favorite conditioners.

The DUO conditioning system with separate oil lines and two conditioner cartridges gives you maximum flexibility. Use one conditioner, two conditioners, or even mix compatible conditioners in one pass!

The DUO transfer system combines the transfer brush and the transfer roller to give you the best of both worlds in one system. This system enhances the smoothness of the oil pattern and the residual oil burns out quickly from the system for easy pattern changes.

# UPGRADES

## VARIABLE SPEED BUFFER\*

With the Variable Speed Buffer upgrade you can have the peace of mind that you have all the tools necessary to have full control of your oil pattern.

With this added feature, you will have the ability to slow down or speed up the buffer RPM allowing you more control of the front to back taper.

## CLEANER MIXING SYSTEM\*

Utilizing one cleaner concentrate tank and one water tank, the FLEX eliminates the messy job of pre-mixing the cleaning solution.

Simply select your ratio on the touchscreen display and let the FLEX mix your cleaner for you with precision and ease. You can adjust the cleaner ratio within the oil pattern as well as outside of the oil pattern allowing you to save on cleaner concentrate!

\*Factory upgrade (must be installed at time of purchase)

## PIN DECK TREATMENT SYSTEM

Insert Spot On Pin Deck Spray directly in your lane machine for simple application.

## KEGEL PATTERN APP

Browse and view lane patterns and transmit them to your compatible Kegel Lane Machine right from your phone or tablet! Available for download from iTunes and the Google Play Store. You must have a Wi-Fi connectivity kit installed and configured in order to transmit patterns
